

Dear Parents,

Since many of our families use and prefer homeopathy for first aid care, homeopathic remedies (Arnica for bumps and bruises, Chamomile for upset stomachs, etc.) are made available at the school for all children. If your child should require first aid and you would like to have us use these remedies, please sign the form below and send it back to school. Thank you.

I permit my child _____ to be treated homeopathically should the need arise for First Aid care while in school or on a school walk.

_____ I do not allow my child to be treated homeopathically.

Date: _____ Parent's signature: _____
